

# PALMILLA GOLF CLUB UPDATE

June 30, 2023

INTRODUCING THE  
ONE&ONLY GOLF CLUBHOUSE

# One&Only Golf Clubhouse

## THE VISION

The new Golf Clubhouse will create a space that reflects the rich local culture and heritage through its architecture, integrating traditional Mexican styles, colors, textures and patterns to create a sense of place that is uniquely Los Cabos.

The Clubhouse will serve as a central hub for members and their families, providing a welcoming and inviting space for socializing, relaxation and epicurean delights. The building's entrance will be inspired by traditional Mexican haciendas, with high ceilings, arched doorways and natural light. The lobby will also feature an artisanal coffee shop and market as well as a bar for refreshments.

The signature restaurant, helmed by a Michelin-starred Chef, will feature a menu that showcases the flavors of the region, using local ingredients and traditional recipes.

The architecture of the Golf Clubhouse will be inspired by the natural surroundings, incorporating the region's rugged desert landscape and stunning ocean views.
